**QUADION**  
TECHNOLOGIES  
Crafting Great Software

# About Us

We help companies solve their business needs

by using agile methodologies to incrementally deliver top-notch software solutions.

Since 2004, we've been offering our ISO 9001:2015 certified services to international clients in a wide variety of industries including fintech, retail, healthcare, media, government, engineering, entertainment and tourism. We host agile teams of highly creative and talented professionals with experience in web (Node.js, .NET, Java, Ruby on Rails) and mobile (iOS, Android) platforms.

# How we work

- Small, cross-functional, self-organizing teams.
- Small, concrete deliverables sorted by priority and relative effort.
- Project split into short, fixed-length iterations.
- Demos and revisions after each iteration.
- Smooth process, improved capability and minimum waste.
- Visual workflow, measurable metrics and solid results.

# Our Metrics

**+250**  
completed projects

**+95**  
professionals

**+70%**  
assignments from USA

**85%**  
NPS Index

**78%**  
English speaking personnel

**+30**  
years of experience

# We are different because

we always deliver.

we are pragmatic and driven by results.

we get most of our assignments from USA companies.

we have ample experience in nearshore software development.

we deliver the right technology to meet business objectives.

we adapt rapidly to different industries and market needs.

we are quality certified (ISO 9001:2015).

we strive for long-term partnerships with our clients.

we are passionate about what we do.

we build easy to use solutions.

we nourish talent.
